BTT Recorder v1.4

Audio Recordings

Audio recordings are recordings that are done by someone that can read a source text.

Audio recordings can be created for:

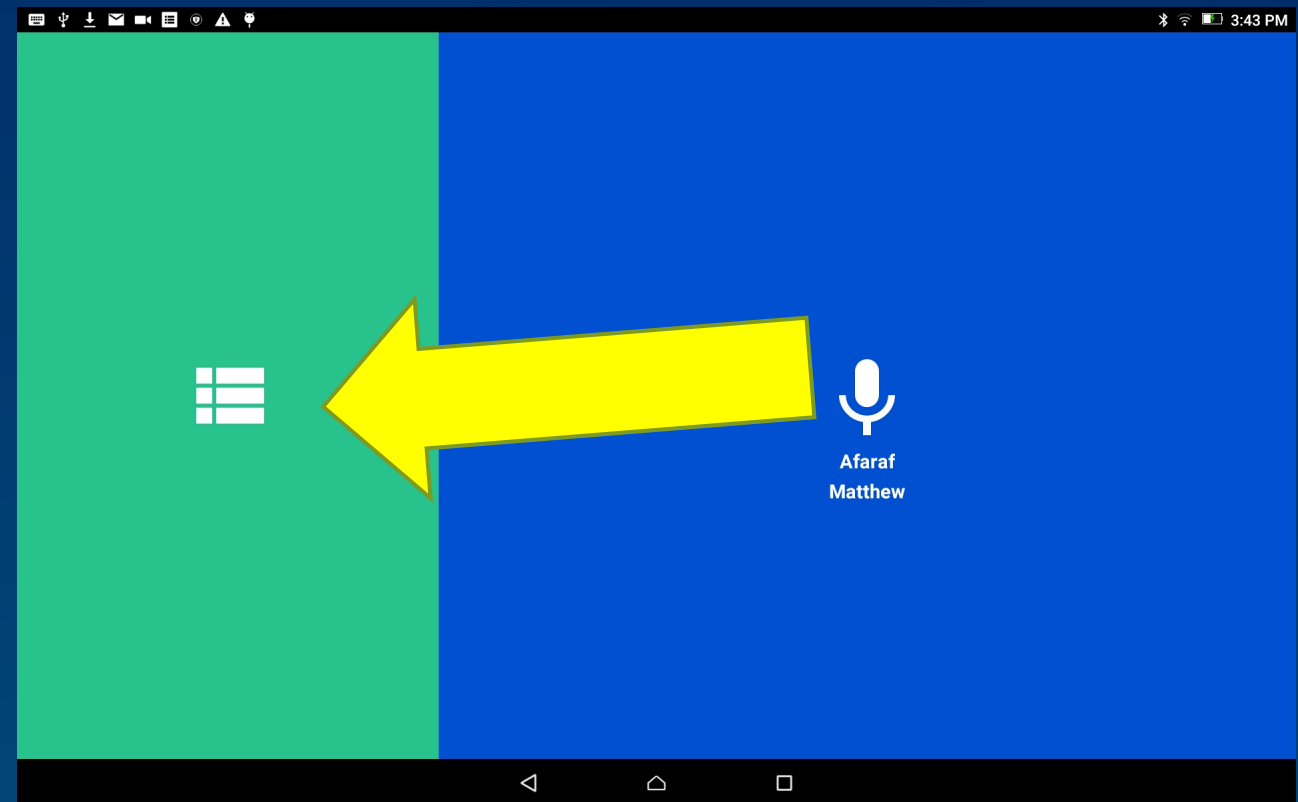

- ▶ A Gateway Language source audio.
- ▶ When a translator translates from a written text that they can read into their Heart Language that is not a written language.
- ▶ When a language group would like to have an audio recording of their written Bible to be used by those that cannot read the language.

Audio Recordings

- ▶ From the home screen, tap in the green area to open the Project Management screen.

This step is for
when the user
returns to a
recording
session

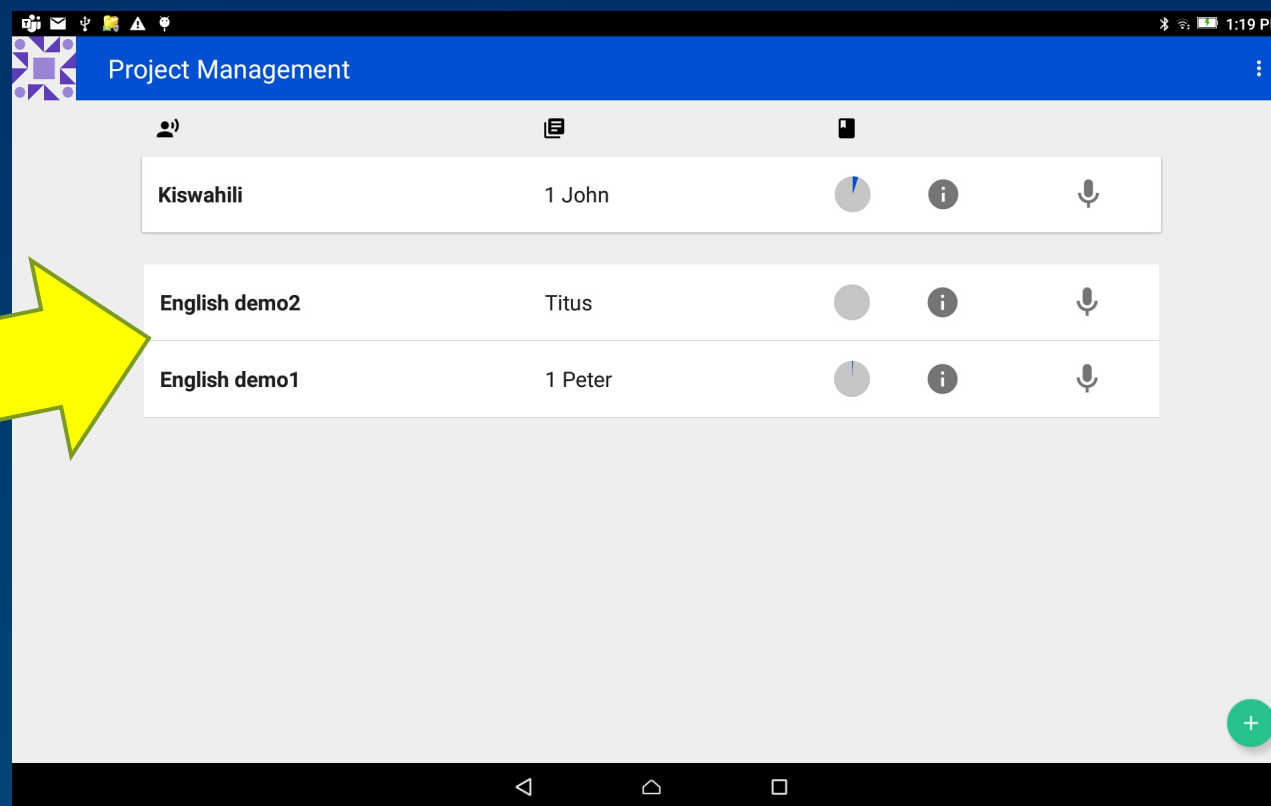

Audio Recordings

- ▶ Tap on the project bar to open the project.

The project that was worked on last is at the top of the list.

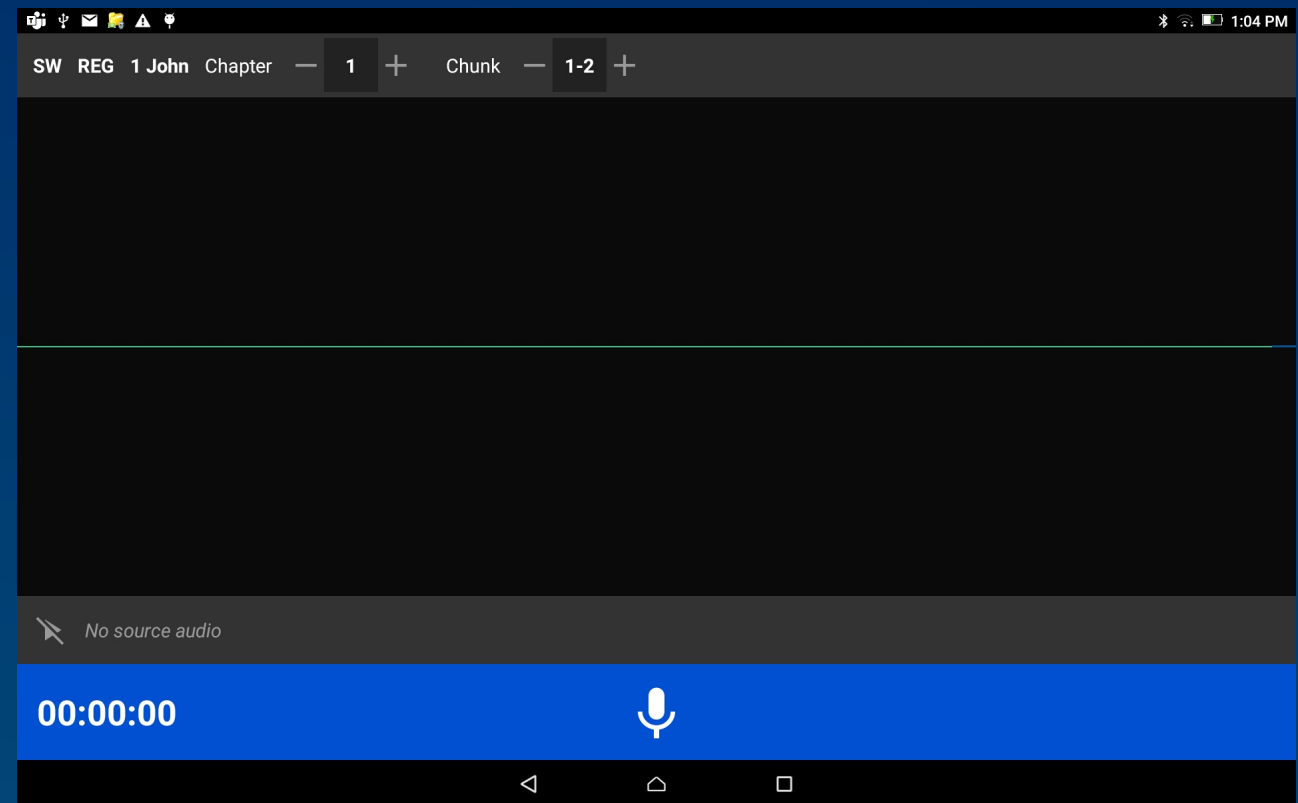

Audio Recordings

The Project Opens:

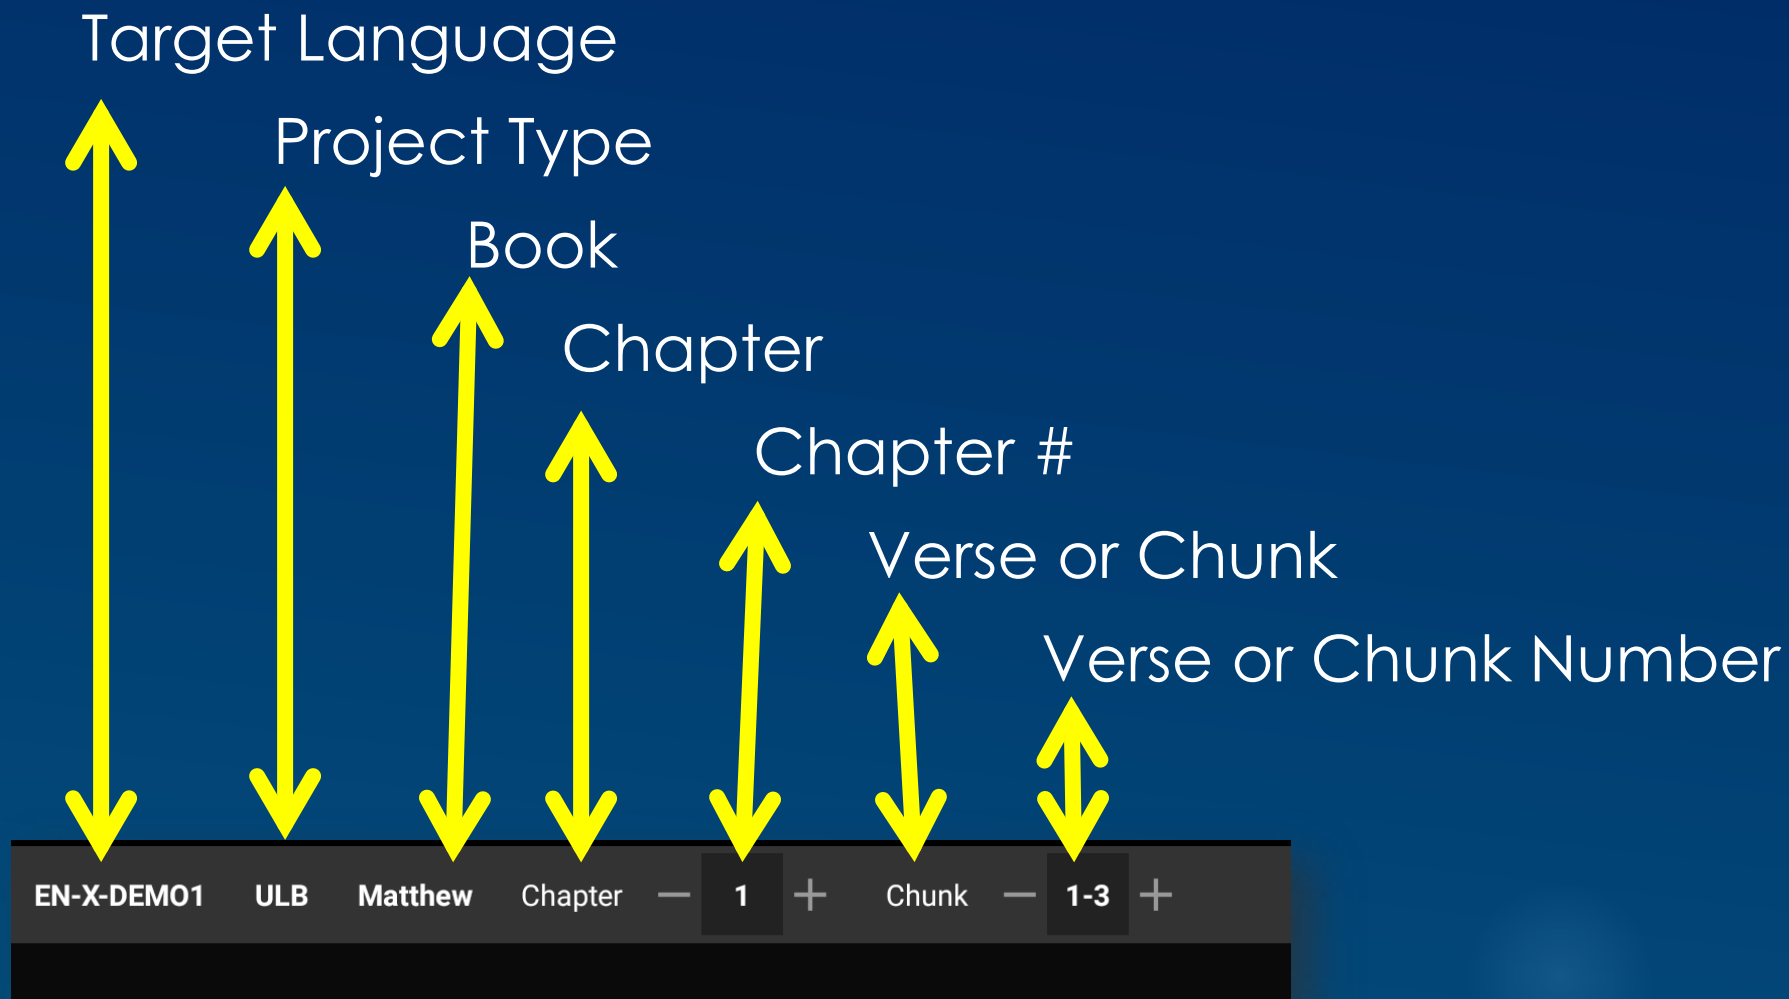

- ▶ Have the written text open to the first verse that will be read.

Audio Recordings

- Check the information on the top gray bar:

Audio Recordings
